AVAADA
FOUNDATION

Avaada Foundation, a Section 8 company under the Companies Act, 2013, serves as the CSR implementation arm of the Avaada Group. The Foundation is committed to transforming lives through strategic development initiatives across India in the fields of education, empowerment, environment, healthcare and rural electrification. The Foundation works in close collaboration with local communities, government bodies, and implementation partners to deliver high-impact, scalable, and replicable programs that are aligned with Sustainable Development Goals (SDGs) and the provisions of Schedule VII of Section 135 of the Companies Act.

WE REMAIN DEDICATED TO

Transforming Lives

VISION

Fostering positive change by enhancing education, empowering women through skill development, extending healthcare access and environment preservation. We aim to impact students, provide quality healthcare in rural areas, and ensure computer literacy in every household. Our commitment to planting saplings and promoting sustainable agriculture aims for a healthier ecosystem by 2030. Integrating environmental sustainability with community development, we strive for a holistic and enduring impact, supporting a brighter, more sustainable future.

MISSION

To be a leading force for positive change. We envision ensuring accessible quality education, empowering women as equal contributors to society's growth and healthcare access in rural areas. Our commitment extends to innovative solutions for sustainable positive impact on climate and the environment.

MESSAGE FROM THE CHAIRMAN

सर्वे भवन्तु सुखिनः सर्वे सन्तु निरामयाः।सर्वे भद्राणि पश्यन्तु मा कश्चिद्दुःखभाग्भवेत्॥
"May all be happy. May all be free from illness. May all experience what is auspicious. May none suffer."

Vineet Mittal
Founder & Chairman
Avaada Group

At Avaada, we have always believed in one simple principle: people before profit. This is the operating philosophy behind every school we build, every livelihood we support, and every community we walk alongside. True progress is measured not by the megawatts we generate, but by the lives we empower. It is this belief that shapes everything Avaada Foundation does, as we work to build the social infrastructure for a stronger, more inclusive, and self-reliant India.

FY 2025–26 has been a year of meaningful expansion and deeper impact. Through our interventions across nearly 20 States and Union Territories, Avaada Foundation has achieved a cumulative outreach of over 18.5 lakh, advancing our commitment to ensure that development reaches the last mile. Our work today spans the entire lifecycle of community development, from enabling a child to access quality education, supporting health and nutrition, empowering women through skills and livelihoods, strengthening rural infrastructure, promoting environmental stewardship, and providing access to clean energy solutions.

Under our Village Adoption Programme, we are creating integrated models of rural transformation where education, healthcare, livelihoods, water, sanitation, environment, and energy are addressed together rather than in isolation. Across our network of Community Development Centres, Digital and AI based learning initiatives, scholarship programmes, school transformation projects, mobility support through bicycles and buses, healthcare interventions, women's empowerment programmes, and environment conservation, we are building pathways for long-term self-reliance and climate resilience.

Our commitment extends well beyond statutory CSR. With our vision of holistic development, one that nurtures human potential while strengthening the social, environmental, and cultural fabric of the nation. From supporting aspiring women cricketers in rural Rajasthan and providing scholarships to deserving students, to advancing research and innovation, promoting river conservation, preserving India's rich cultural heritage, and extending support to vulnerable communities through philanthropic initiatives, we remain guided by a simple belief: meaningful progress is achieved when opportunity, dignity, and hope reach every corner of society.

As India progresses towards the vision of Viksit Bharat 2047, philanthropy must evolve from aid to institution-building, from isolated interventions to ecosystem creation. Avaada Foundation seeks to be a catalyst in this journey, creating empowered villages, confident youth, healthier families, resilient livelihoods, and sustainable communities that become the foundation of a New India.

The journey ahead is ambitious, but so is our resolve. Together with our communities, partners, employees, and well-wishers, we will continue transforming promises into opportunity and opportunity into lasting prosperity.

MESSAGE FROM THE DIRECTOR

Ritu Patwari
Director
Avaada Foundation

At Avaada Foundation, we believe that meaningful change is created when development is approached holistically and communities are empowered to shape their own futures. Guided by this belief, we are working across education, empowerment, environment, health, and rural electrification to build resilient communities and create pathways for sustainable growth.

Over the years, our footprint has steadily expanded, and today our interventions reach communities across 18 States and 2 Union Territories, with a cumulative outreach of over 18.5 lakh. Through every initiative, we are focusing on creating long-term impact rather than short-term solutions, ensuring that development reaches those who need it the most.

This year, our education initiatives are strengthening government schools through infrastructure development, digital and AI-enabled learning, scholarships, school transformation programmes, mobility support through bicycles and buses, sports development initiatives, and academic assistance. The inspiring journey of the girls' cricket team from Badnu, Rajasthan, is reminding us of what becomes possible when talent is supported with the right resources and encouragement. Across our programmes, we are helping transform learning experiences for thousands of students while creating pathways for academic and sporting excellence.

Across our empowerment initiatives, Community Development Centres are serving as hubs of opportunity, having impacted over 9,200 beneficiaries through digital literacy, vocational training, livelihood enhancement, entrepreneurship, and community participation. Simultaneously, we are supporting women, youth, farmers, and vulnerable groups through targeted interventions designed to strengthen self-reliance and economic resilience.

Our commitment to environmental stewardship is being strengthened through plantation drives, cleanliness campaigns, river conservation awareness, waste management initiatives, and community-led environmental action. During the year, we have supported the plantation of over 9950 saplings and engaged hundreds of community members in environmental initiatives. In health, we are expanding access through medical camps, nutrition support, ambulance services, blood donation drives, eye-care interventions, and public health programmes, collectively reaching over 24,000 individuals. Through rural electrification efforts, we are bringing clean energy solutions closer to underserved communities and have facilitated access to clean energy for over 1.6 lakh beneficiaries, reinforcing our belief that energy access can be a catalyst for development. Equally important is the strength of our partnerships. We are actively collaborating with government institutions, civil society organisations, community leaders, and development partners to deepen our impact and reach. Together, we are creating ecosystems that support learning, livelihoods, health, sustainability, and social inclusion.

As we look ahead, we are remaining committed to scaling impact, fostering innovation, and strengthening community ownership. Every programme, partnership, and intervention is contributing to a larger purpose—building empowered communities that are confident, resilient, and prepared to lead the journey towards a more inclusive and sustainable India.

OUR APPROACH

NEED ASSESSMENT
Conducting on-ground assessments to identify community needs, gaps, and priority areas

01

02

PRIORITIZATION & ACTION PLAN
Analysing findings to design need-based, data-driven interventions with clear action plans

IMPLEMENTATION
Executing targeted initiatives in collaboration with communities and local stakeholders

03

04

MONITORING
Tracking progress and outcomes to ensure effectiveness, accountability, and continuous improvement

Through its strategic 'Village Adoption Programme', the Foundation follows a structured five-step approach: survey, prioritisation, action planning, implementation, and monitoring; ensuring every initiative is data-driven, need-based, and sustainable. Working closely with local communities, government bodies, and implementation partners, Avaada Foundation delivers holistic, scalable, and replicable models aligned with India's Sustainable Development Goals (SDGs).

ADDRESSING SUSTAINABLE DEVELOPMENT GOALS

Avaada Foundation is committed to contributing to Sustainable Development Goals (SDGs) to drive socio-economic development: MISSION 2030

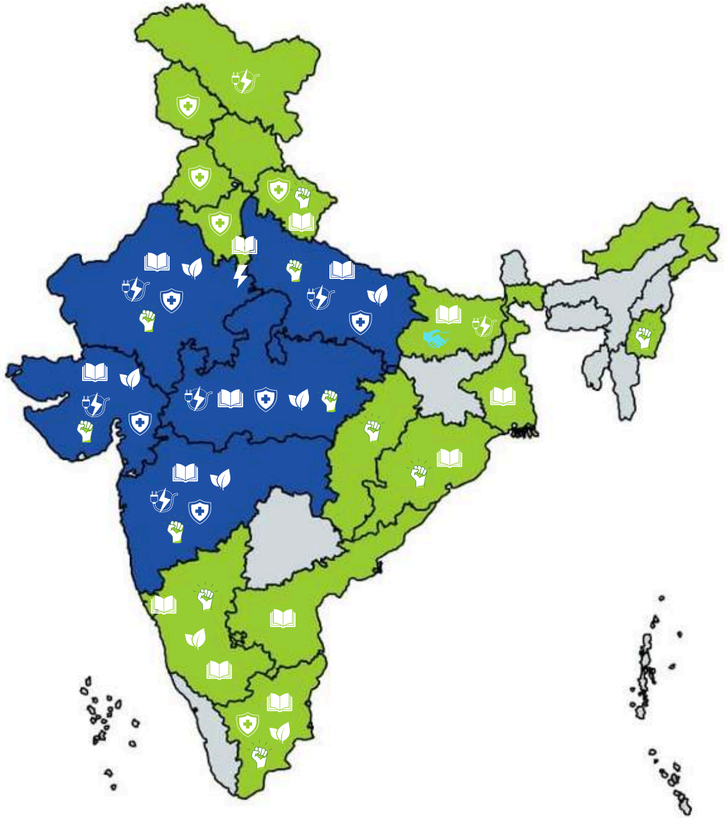

SUSTAINABLE DEVELOPMENT GOALS

We believe that alignment of the Indian CSR regulation with the SDGs has tremendous potential to develop a cohesive sustainable growth model. Avaada Foundation has been consistently working towards holistic development of the communities and contributing to the various thematic areas as defined in the SDGs.

Avaada Foundation fosters innovation and effective positive transformation through comprehensive programs, in the rural and urban spaces in India, that are aligned to address the national missions and the larger sustainable development goals.

STRATEGIC FOCUS

At Avaada Foundation, we believe that long term, sustainable societal change begins with a value-based approach. Our programs are rooted in promoting education, empowerment, healthcare, environmental conservation, and rural electrification, with a special focus on inclusive development and gender equity. The Foundation works in some of the remotest villages in India, guided by the vision to leave no one behind.

In FY 2025–26, Our strategic focus is guided by the EEEHR, framework:

- Education
- Empowerment
- Environment
- Health
- Rural Electrification

We are strengthening communities through:

- Village Adoption Programme focusing on holistic development
- Skill training and livelihood enhancement
- Health and sanitation programs
- Rural electrification and infrastructure development
- Environmental stewardship through large scale plantation drives

Our approach combines direct implementation with collaboration, leveraging partnerships to fulfill localized, community-driven needs. These initiatives directly contribute to achieving Sustainable Development Goals (SDGs) and align with Schedule VII of Section 135 of the Companies Act, 2013.

HIGHLIGHT OF THE YEAR

WOMEN'S CRICKET TEAM

BADNU, RAJASTHAN

FROM BAREFOOT PRACTICE TO STATE CHAMPIONS

In the small village of Badnu, girls once practiced cricket barefoot on dusty grounds, driven by passion but limited by resources. With no proper kits, financial support, or structured opportunities, their talent risked remaining unseen.

With Avaada Foundation's support, those dreams found direction. What began as practice on barren fields evolved into a journey toward national platforms proving that when rural girls receive consistent backing and belief, they rise not only as players but as role models for their communities.

Through sponsorship and essential resources, the Rajasthan U-17 and U-19 Girls' Cricket Teams gained opportunities to compete, excel, and inspire. Today, they stand as proof that talent can thrive anywhere when given the chance.

OUR CARE

Sponsorship for Rajasthan U-17 & U-19 Girls' Cricket Team for the past two years

Sports Kits & Equipment continue to improve performance

Travel & Logistics Support enable participation in tournaments and camps

Academic Assistance to help players balance education and sport

OUR IMPACT

Champions- 69th State-Level Cricket Tournament

5 Players selected as Net Bowlers for the Women's Premier League (Delhi Capitals)

3 Players reached National Level Tournaments

EDUCATION

AVAADA UTKRISHT SHIKSHA ABHIYAN

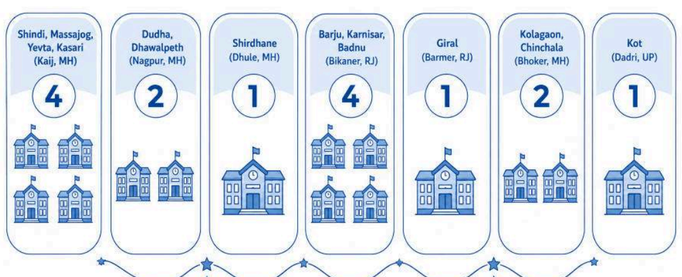

Education lies at the heart of Avaada Foundation's commitment to building resilient and self-reliant communities. Across tribal and underserved regions of Uttar Pradesh, particularly in the Prime Minister's adopted villages of Varanasi and Sonbhadra in Uttar Pradesh, Rajasthan, Gujarat, Maharashtra, Madhya Pradesh, and urban communities, we are strengthening educational ecosystems by improving access, enhancing learning environments, and creating opportunities for holistic development.

Our interventions span school infrastructure development, digital and experiential learning, teacher capacity building, scholarships, academic support, and technology-enabled education. Through virtual classrooms, coaching centres, digital literacy initiatives, educational excursions, and innovative learning methodologies, we are helping bridge learning gaps and make quality education more accessible. Beyond academics, we are nurturing confidence, creativity, leadership, and life skills through sports, co-curricular activities, summer camps, and experiential learning programmes. By creating enabling environments where children and youth can learn, grow, and aspire, Avaada Foundation is empowering the next generation to realise their full potential and shape a brighter future for themselves and their communities.

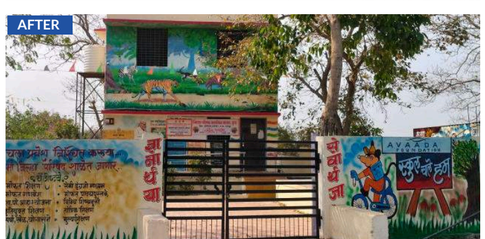

GOVERNMENT SCHOOL RENOVATION AND UPGRADATION

At Avaada Foundation, we are strengthening government school infrastructure to create safer, more inclusive, and conducive learning environments for children. Through the renovation and upgradation of schools, construction of sanitation facilities, provision of safe drinking water, interactive boards, plantation, rainwater harvesting systems, and dedicated transport support such as school buses and bicycles, we are improving access to quality education, particularly in rural and remote regions of Beed, Nagpur, Buldhana, Gautam Buddha Nagar, Dhule, Barmer, Bikaner and Nanded.

Beyond infrastructure, we are enriching learning ecosystems through virtual classrooms, coaching and tuition centres, and our 'Avaada Community Development Centers', where IIT graduates and trained educators provide subject-specific academic support to students. We are further promoting holistic development through educational trips, summer camps, spoken English classes, the 'Panini Mind Opening Technique,' teacher support initiatives, and a wide range of sports, creative, and skill-based activities.

EMPOWERING EVERY CHILD TO LEARN

At Avaada Foundation, we are helping children step into classrooms with dignity, confidence, and hope. For many children in the communities we work with, even basic school essentials like uniforms, shoes, bags, and study materials were once out of reach, becoming barriers to regular attendance and learning.

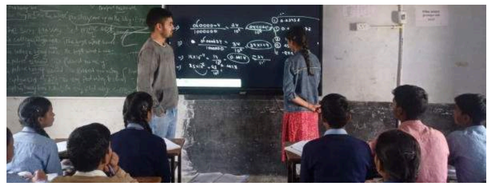

Through the distribution of school bags, uniforms, sweaters, stationery kits, bicycles, and transport support, we are ensuring that no child is left behind due to lack of resources. By meeting these everyday needs, we are not only supporting education, but also inspiring children to stay in school, participate actively, and dream of a brighter future.

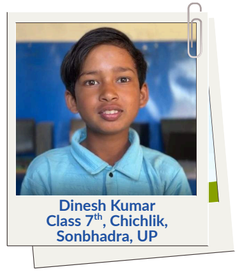

NURTURING DREAMS THROUGH QUALITY EDUCATION

Avaada Foundation adopted a comprehensive approach to strengthen educational outcomes by creating a supportive learning ecosystem for students with limited resources and exposure. To address the low student-teacher ratio, qualified teachers were deployed in government schools, providing 3–4 hours of focused academic support daily. The initiative also bridged the digital divide through virtual classes and the distribution of tablets with recharged SIM cards and preloaded, grade-appropriate content, enabling continued learning beyond classrooms. To inspire aspirations, laptops, desktop computers, and competitive exam preparation books were provided, alongside book fairs to encourage reading. 260+ students, from 4 villages; Karnisar Bhatiyan (Biknaer, RJ), Bhachau (Kachchh, GJ), Dudha (Nagpur, MH), Dhule (Shirdhane, MH) took their first trip and travelled outside their villages for educational trip to the Avaada-constructed planetarium in Dongla, Madhya Pradesh, and spiritual trip to Ujjain. Furthermore, 28 students boosted their STEM knowledge by visiting Avaada Solar Plant in Kaij, Beed, Maharashtra. Beyond academics, every week with the students, we have also been conducting various workshops and interactive activities focusing on real-life problem-solving skills. This helped broaden perspectives and build confidence. Motivational sessions, career counselling, public speaking and cyber security workshops further empowered students, nurturing not only academic growth but also hope and ambition for the future.

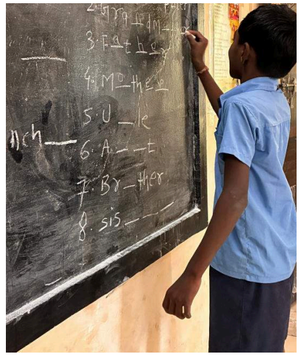

Dinesh Kumar
Class 7th, Chichlik,
Sonbhadra, UP

With the support of Avaada Foundation, we now have access to essential learning resources such as school bags, uniforms, books, sweaters, and stationery kits. The provision of bicycles is helping us reach school on time, while access to computer labs is enabling us to learn important digital skills. These interventions are not only supporting our education but also giving us the confidence to learn, grow, and build a better future.

मौका मिले, ज़िंदगी खिले।

PANINI MIND OPENING TECHNIQUE

Avaada Foundation introduced new pedagogy, 'Panini Mind Opening Technique', an innovative, play-based pedagogy, to address the need for experiential learning in early grades where rote-based methods often limit conceptual understanding. The approach aligns with national priorities such as the NIPUN Bharat Mission and Foundational Literacy and Numeracy (FLN) by promoting sensory-based, child-centric learning. By creatively painting academic concepts and syllabus content on school walls, Avaada Foundation is transforming classrooms into interactive learning spaces where children learn through play and participation. Under this pedagogy activity-based learning takes shape using simple tools such as cards, blocks, and chalk are further making education engaging and enjoyable—encouraging even irregular students to attend school with greater enthusiasm and interest.

During the year, government school teachers from across project locations were trained in Sonbhadra through hands-on sessions using interactive tools, enabling them to simplify concepts in language, science, and mathematics.

Following the training, teachers returned to their respective schools and implemented the technique in their classrooms, resulting in more engaging and stress-free learning environments, improved student participation, and stronger foundational understanding. The initiative has begun to demonstrate positive changes in classroom practices, contributing to enhanced foundational learning outcomes and supporting holistic development among children.

SCHOLARSHIPS

Avaada Foundation's scholarship program supports 108 students from economically challenged backgrounds across states, enabling access to education otherwise hindered by financial barriers. We are supporting school education of students in Prime Minister Adopted villages Jayapur & Nagepur (in Varanasi), in 3 villages of Sonbhadra and 3 villages of Nagpur. Overall, 59 students are enrolled in our 2-year ITI Scholarship program from Sonbhadra, Nagpur and Bikaner and 56 are school-going students. At IIT Roorkee, we supported a research student for a health & technology project. The scholarship program covers admission, tuition, and living costs; empowering students to pursue skill-based, technical, and higher education.

Shrishti Thakre
2nd Year ITI Student
Tarsi Village, Butibori, Nagpur

In 2025, Avaada Foundation organised a Kabaddi tournament in our village. During the tournament, they announced scholarships for students aspiring to pursue ITI education, offering to cover the cost of our studies. For many of us, it felt almost unreal—we had never imagined that such an opportunity could be within our reach.

But Avaada Foundation turned that promise into reality. With their continued support, not just I, but several of my peers from nearby villages were able to enrol in ITI and pursue our education without the burden of financial constraints.

For me, this support is more than a scholarship—it is the confidence to stand on my own feet and shape my future. Today, as I complete my first year of ITI, I move forward with renewed determination and bigger aspirations.

I remain deeply grateful to Avaada Foundation for believing in us and enabling this journey of transformation.

Scholarship to ITI Students, Sonbhadra, Uttar Pradesh

Solar PV training of 20 Avaada ITI Scholarship students from Bikaner in Collaboration with Skill Council for Green Jobs

Avaada ITI Students getting practical training of electrician trade at Sudsar (Bikaner)

AVAADA SPORTS AND RECREATIONAL CENTER, KOLIWADA, MUMBAI (MH)

Avaada Sports and Recreational Center being run by the Avaada Foundation in Koliwada is transforming young lives by offering purposeful alternatives to screen addiction and substance abuse. From 6 a.m. to 11 p.m., the center remains packed with students engaged in table tennis, archery, carrom, chess, yoga, spoken English, summer camp, and other co-curricular & recreational activities. It fosters discipline, breaks gender stereotypes, and builds confidence. With reduced mobile usage and focused engagement in constructive activities, the center has emerged as a vibrant and secure space—demonstrating that meaningful change is achievable when opportunities are made accessible.

SUMMER CAMPS

The Avaada Foundation organized one-month long summer camps across 4 states- Gujarat (Bhachau - Adohi, Halra), Uttar Pradesh (Sonbhadra and Varanasi), Maharashtra (Koliwada in Mumbai, Kaij, Nagpur), and Madhya Pradesh (Kumhar Pipaliya), reaching over 4,000 students. A wide range of activities, including art and craft competitions, Olympiads, dance contests, Shloka learning & recitations, storytelling & public speaking, and sports events, were conducted along with providing the kids with nutritional refreshments. These camps aim to promote critical thinking, team spirit, creativity, and a sense of community among children while ensuring that students made constructive use of their vacation time in a fun and structured manner.

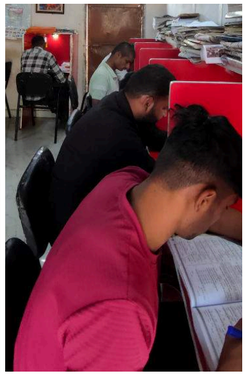

SWAMI VIVEKANANDA STUDY CENTER, SHIRDHANE, DHULE

At Shirdhane, Dhule, Maharashtra, Avaada Foundation supports youth preparing for competitive examinations such as SSC, Police Recruitment exams, NEET, nursing, pharmacy, and engineering entrance tests. The Foundation has provided competitive exam books, laptops, a computer set, and an inverter to create a better learning environment. It also repaired the road leading to the study centre and developed a playground for physical practice related to police recruitment training. These initiatives have inspired the students to pursue their goals with renewed zeal and enthusiasm. Their dedication and hard work reflect the positive impact of the support, and we are confident they will achieve great success in the future.

EMPOWERMENT
AVAADA NAV KIRAN

Avaada Foundation is strengthening community empowerment by creating integrated platforms that enable skills, livelihoods, and opportunities to grow together. At the core of this approach is the flagship programme, the 'Avaada Community Development Centers', where we are training women in advanced-level stitching, crochet, and beautician skills, helping them take active steps towards income generation and financial independence. At the same time, we are building digital literacy among women and youth, while supporting students through coaching centers to strengthen their academic foundations. This year we set up 6 'Avaada Community Development Centers', while continuing with 3 previously set-up centers.

Beyond skilling, we are fostering confidence and aspiration through sports; developing playgrounds, training players, organizing tournaments, and providing essential equipment. We are also building strong community connect through cultural engagements, festival celebrations, and support to vulnerable families with livelihood resources. Through social security camps, we are further linking communities to government schemes, ensuring access to entitlements and strengthening overall well-being.

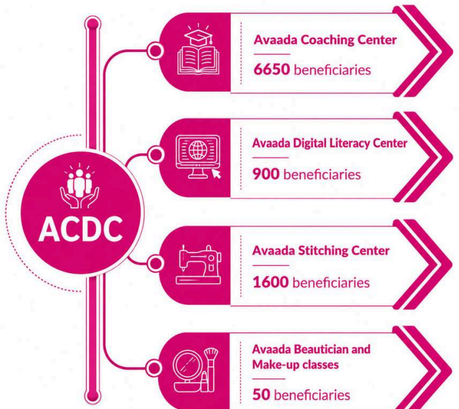

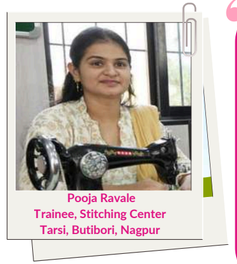

'Avaada Community Development Centers' serve as inclusive integrated space wherein in four rented rooms, each for free coaching centers, free digital centers, free stitching & crochet and skilling trainings support in holistic community development. At places like Bhachau and May Gaon (Kachchh, Gujarat) and Lahuri (Kaij), we renovated the community building for community development center.

These centers provide structured academic coaching for students from Grades 1 to 12, strengthening foundational learning and improving academic outcomes. Alongside, digital literacy programs range from basic computer skills to introductory coding, equipping participants with essential competencies for today's digital world. To boost the digital learning and career advancement, we have donated 18 computers in Sangli (Pune) and Shirdhane (Dhule). These digital learning centers has supported many youth to secure and employment and still continues to do so. Furthermore, through our empowerment initiatives, we have also supported 50 local youth in securing employment.

These centers also deliver livelihood-focused training, 'Avaada Navkiran Stitching Center' (includes stitching & crochet training), diya & bag making workshops, 'Avaada Beauty and Make-up Class' etc. for women, enabling them to build market-relevant skills and transition towards income generation in the regions of Sonbhadra, Kaij, Dhule, Tarsi, Bhoker, Bikaner, Ladvan, Bhachau. For continued support, we donated 50 industrial and tailor-model machines to women. By combining education, digital access, and skilling within the community, these centers are creating pathways for confidence, self-reliance, and long-term socio-economic empowerment.

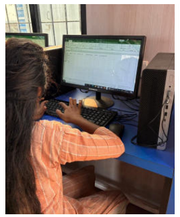

Every woman and youth from our 'Avaada Community Development Center' receives advanced level training in diverse skill, get certification and with our support pursues entrepreneurship. Many of our skilled women today have regular income generation with the help of our industry linkages.

Pooja Ravale
Trainee, Stitching Center
Tarsi, Butibori, Nagpur

Before Avaada came to our village, we had very limited access to opportunities and remained confined to our roles as homemakers. Since Avaada Foundation intervention, we now have access to computer classes, stitching and crochet training, and tuition support for kids.
Through crochet training we have not only learned something new & market trendy, but are also able to create and sell products. Learning skills aligned with market trends has given us confidence, financial independence, and a sense of identity. Avaada has supported us like a family, and I sincerely thank them for transforming our lives.

HAR GHAR KHETI BAGBAANI

CULTIVATING NUTRITION & LIVELIHOOD THROUGH KITCHEN GARDENS IN SONBHADRA AND KAIJ

Avaada Foundation is strengthening household-level food security through the promotion of kitchen gardens in Sonbhadra and Kaij. By enabling 300+ beneficiaries to utilise available spaces for cultivation, the initiative is improving access to fresh, nutritious, and chemical-free produce.

Through the distribution of quality seeds and saplings, along with guidance on sustainable farming practices, households are being supported to grow vegetables throughout the year. This approach is not only enhancing nutritional intake but also reducing dependence on market purchases, particularly for vulnerable families.

Total Beneficiaries
300+

मौका, सीखने का, आगे बढ़ने का, अपने पैरों पर खड़े होने का।

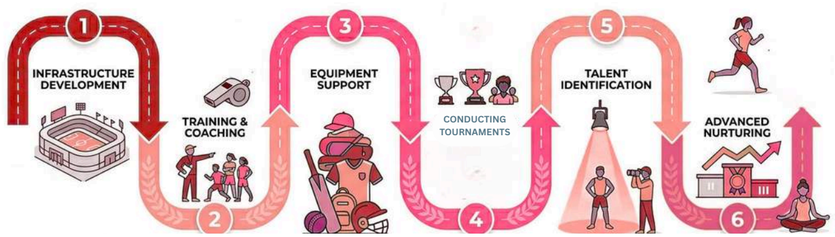

Chanda Devi
Kitchen Gardener
Sonbhadra, Uttar Pradesh

Earlier, our meals were mostly limited to rice and potatoes, and providing nutritious food for my children was a constant challenge. With the kitchen garden support from Avaada Foundation, we now grow fresh vegetables throughout the year, improving our family's health and reducing expenses. Selling surplus produce has also given us an additional source of income and confidence for the future.

SPORTS ENGAGEMENT

Total Beneficiaries
8000+

INFRASTRUCTURE DEVELOPMENT

In many of these villages, sports infrastructure and awareness were previously absent, and youth, students, and the wider community had limited exposure to sports as a pathway for growth or aspiration. With Avaada Foundation's presence, we are now witnessing a visible and rapid rise in sports participation, interest, and ambition across these communities. Avaada Foundation is fostering a strong culture of fitness, discipline, and aspiration among rural youth by strengthening developing sports ground, uplifting grassroots sports infrastructure and promoting active participation. We are developing sports grounds across our locations, with communities actively benefiting from facilities at Tarsi (Nagpur, MH), Jayapur (Varanasi, UP), and Shirdhane (Dhule, MH), reaching 4,000+ youth. In Shirdhane, we are supporting 50–60 young aspirants through a dedicated 400-meter running track, enabling preparation for Police, Defence, and other competitive physical examinations.

SPORTS TRAINING & COACHING

Across project locations, structured sports training and exposure were previously limited, with minimal access to coaching or diverse sporting disciplines. Avaada Foundation is now actively building this ecosystem by delivering multi-sports training programs in villages such as Kumhar Pipaliya, Nagepur, Dudha,Tarsi, Shirdahne, Chichlik, Basuhari covering Kabaddi, Kho-Kho, Cricket, Football, Lathi, and self-defence—collectively reaching 870 youth. These efforts are steadily strengthening grassroots capabilities, improving physical fitness, and nurturing early-stage sporting talent across communities.

EQUIPMENT SUPPORT

In many of our intervention villages, sports was never a part of everyday life. Young people had the interest, but not the access—no playgrounds, no equipment, and no guidance to pursue it seriously. As a result, sports remained limited to occasional play, with little awareness of the opportunities it could create. Recognising this gap, Avaada Foundation is building a strong foundation by bringing structured training, basic resources, providing sports equipments in schools, and regular platforms for youth to participate and grow. We have signed a long-term MOU with Women's Cricket Team, Badnu (Bikaner, Rajasthan) under which we are sponsoring and supporting the team with complete sports kits & gear, travel, training, food, stadium fee and ground development — ensuring the best resources reaches the team. We are further supporting youth players by distributing jerseys in Shirdhane, providing running shoes and sports kits to players in Nagepur.

CONDUCTING TOURNAMENTS

We are further scaling participation by organizing and enabling competitive platforms, with 3000+ participants engaged in 4-days and nights Mega Kabaddi tournaments across locations including Dudha and Tarsi (Nagpur, MH). Large-scale events such as Avaada Khel Utkarsh (462 participants) and Avaada Khel Mahotsav in Shirdhane (500+ participants) are creating structured avenues for inter-school and village-level competition. At the same time, we are organise annual summer camps across multiple locations, reaching 4,088 participants, where children actively engage in sports, fitness, and team activities. Along with community-led events like 'Run for Unity' in Barju, these efforts are building confidence, increasing participation, and helping young people see sports as a pathway to opportunity and growth. Additional engagement through cricket tournaments, sponsoring Sansand Khel Mahotsav in Gujarat, urban Sports & Recreation Centers in Mumbai, and international exposure by sponsoring the Indian Pickleball team is collectively expanding access, deepening aspiration, and building a vibrant, inclusive sports culture from grassroots to global platforms.

TALENT IDENTIFICATION

In many rural communities, talent often remains unseen due to lack of exposure, platforms, and guidance. Our continuous focused efforts are now identifying and nurturing this potential by creating structured opportunities for youth to showcase their abilities. Through regular sports activities, camps, and local competitions, we are recognizing emerging talent early and encourage to pursue sports with greater intent and confidence.

By providing access to training, mentorship, and essential resources, promising players are being supported to progress to higher levels of competition. Participation in inter-village and district-level tournaments is further enabling visibility and growth. These initiatives are not only identifying talent but also building a pathway for young athletes to develop their skills, compete, and aspire for opportunities beyond their communities.

ADVANCED NURTURING

We take advanced step towards advanced nurturing of young athletes and help them in realizing their full potential. Continuous training programs are being conducted to strengthen skills, improve performance, and build discipline, ensuring that promising players receive consistent guidance and support over time.

Players are being actively linked to district, state, and national-level tournaments, enabling exposure, competitive experience, and visibility. At the same time, required support such as shoes, jerseys, sports kits, and other essential resources is being provided to ensure that financial constraints do not hinder progress. We also extended financial and institutional support to Foundation for Promotion of Sports and Games, for training, and development of Olympic and Paralympic athletes to foster sporting excellence and inclusive participation in national and international events.

Pritam Patel
Kabaddi Player, Jayapur, Varanasi

Kelam Soni
Cricket Player, Badnu, Bikaner

Avaada Foundation's support to Women's Cricket Team has been really helpful. Right from providing us with sports equipments, to travel expenses and practice & training, I and the team express our deepest gratitude. With their support, we are able to work towards achieving dreams that once we thought are figments of imagination. Before Avaada Foundation's came to our village, I never thought I will be able to pursue my career as a sportsperson due to limited resources, but with Avaada Foundation's support and their trust, I am getting closer towards achieving my aim of being a cricketer.

In 2023, Avaada Foundation organised a summer camp, and I particpated in it. During the camp, I played a lot games, and it was then when Avaada Foundation team discovered me and my passion for sports, especially Kabaddi. Since then, I have been fortunate to receive training for Kabaddi and practice daily at the community sports ground developed by Avaada Foundation. Furthermore, installation of the CCTV camera at the sports ground keeps the environment safe and secure, especially for girls who come to practice from far off villages. I express my deepest gratitude to Avaada Foundation for providing us with all the resources and training, helping us achieve our dreams.

CULTURAL ENGAGEMENT

Total Beneficiaries
68,000+

COMMUNITY ENGAGEMENT THROUGH FESTIVALS

Across project locations, access to shared cultural platforms and community celebrations was previously limited, resulting in fewer opportunities for collective engagement and social cohesion. Avaada Foundation is now actively fostering community connect by enabling large-scale festivals and cultural celebrations, reaching over 27,240 individuals. Through structured observance of national and cultural events, including Diwali Melas, Children's Day, Teachers' Day, Independence Day, Republic Day, Gita Jayanti, Holi, Durga Puja, Kanya Puja, Community Feast, Shivaji Jayanti, Hindi Diwas, and Constitution Day; we are engaging a total of 39,000+ participants, strengthening cultural awareness, pride, and community participation.

SHARED EXPERIENCES....

We further reinforce dignity and inclusion by distributing sarees and suits to 1,860+ women across locations including Shirdhane (Dule, MH), Tarsi (Nagpur, MH), Sonbhadra (UP), Mundsar, and Karnisar Bhatiyan (Bikaner, RJ). These initiatives are creating shared experiences, strengthening social bonds, and belongingness within communities, while ensuring that cultural participation becomes inclusive and accessible.

SOCIAL SECURITY

At Avaada Foundation, we are working towards bridging the gap between communities and essential government welfare schemes by organising Social Security Camps at the village level. These camps are serving as important platforms to improve awareness, facilitate registrations, and strengthen last-mile access to entitlements related to health, livelihood, and social protection.

During the year, Social Security Camps conducted in Dudha and Tarsi (Nagpur, MH) facilitated the generation of 285 Ayushman cards and 24 e-Shram cards, enabling families to access healthcare benefits and social security provisions. Similar efforts are also being undertaken in Sonbhadra, (in UP) where communities are being supported in connecting with relevant government schemes and services.

In addition, Avaada Foundation is extending wedding support to 15 girls from economically vulnerable families acrosss Jayapur & Nagepur (Varanasi, UP), Sonbhadra (UP), Bhachau (Kachchh, GJ), Mumbai (MH), Agar (MP), and Banda UP), helping ease financial burdens and supporting families during important life events with dignity and care.

Through these interventions, Avaada Foundation continues to strengthen access, enhance awareness, and ensure that communities are meaningfully connected to opportunities and support systems designed for their well-being and security.

ENVIRONMENT

AVAADA TARU SRIJAN

Avaada Foundation is driving environmental sustainability by nurturing ecosystems, promoting responsible resource use, and building climate resilience within communities, especially in vulnerable and last-mile regions. Through a blend of green interventions and community engagement, we are addressing both immediate environmental challenges and long-term ecological balance.

We are restoring green cover through plantation drives using the Miyawaki technique, enabling the rapid growth of dense, native forests that improve biodiversity, air quality, and carbon absorption. Alongside this, we are encouraging self-sustenance and nutrition through the development of kitchen gardens, empowering households to grow their own fresh produce while fostering a deeper connection with nature.

Our efforts also focus on improving sanitation and waste management through cleanliness drives and the deployment of garbage collection vans, ensuring cleaner, healthier living environments. In parallel, we are strengthening community preparedness through disaster relief initiatives and resilience workshops, equipping individuals with the knowledge and resources to respond effectively to environmental and climate-related challenges.

13 CLIMATE ACTION

TREE PLANTATION

By strengthening green belt initiative Avaada Foundation is implementing focused fruit bearing and green cover plantation initiatives across its project locations. These efforts are contributing to biodiversity restoration and creating sustainable green spaces within communities.

Plantation drives are being undertaken across multiple geographies, Pangaon, Dhamangaon, Pune, Kaij (Beed) and Dhamangaon (MH); Kuchor and Badnu (Bikaner, RJ); Bhachau & Surendranagar (Gujarat); Agar (Madhya Pradesh) and Banda, Badaun & Banka (UP). Interventions are also extending to institutional spaces such as schools, where plantation activities are enhancing the learning environment and promoting environmental awareness among students.

Under the Own a Tree initiative, 6,750 fruit-bearing saplings were planted across 18 acres with an impressive 92% survival rate. Furthermore, under green belt development, around 3200 saplings were planted across 8 acres.

Through these efforts, Avaada Foundation is not only expanding green cover but also building long-term community engagement towards environmental conservation.

CLEANLINESS DRIVES

Avaada Foundation is strengthening environmental stewardship through structured cleanliness drives aimed at improving sanitation and promoting healthier living conditions across communities. These initiatives are designed to encourage collective responsibility while addressing gaps in waste management and public hygiene.

Implemented across Koliwada (Mumbai, MH), Jayapur & Nagepur (Varanasi, UP), Aiho (Bhachahu, Kachchh, GH) and Barju & Karnisar Bhatiyan (Bikaner, RJ), the drives focus on cleaning public spaces, supporting better waste disposal practices, and restoring commonly used areas to safe and hygienic conditions. By engaging local communities in these efforts, the Foundation is fostering ownership and sustained behavioural change.

Through these interventions, Avaada Foundation is contributing to cleaner surroundings, improved public health, and a stronger culture of environmental responsibility at the community level.

ECO-FRIENDLY GANPATI MAKING INITIATIVE

Avaada Foundation is fostering environmental stewardship among the younger generation through its inspiring Eco-Friendly Ganpati Making workshops in Kaij, Beed (MH). By transforming a traditional cultural celebration into a practical lesson in sustainability, the foundation encourages students to craft Ganesh idols using natural, biodegradable clay. This initiative beautifully demonstrates that spiritual devotion and ecological responsibility can go hand in hand, moving away from harmful materials in favor of earth-friendly practices.

DISASTER RELIEF AND RESILIENCE WORKSHOP

Avaada Foundation is strengthening community resilience through disaster preparedness and safety awareness initiatives. As part of this effort, workshops are being conducted in schools on Jayapur (Varanasi, UP), to build awareness and preparedness at an early age. Through practical demonstrations and interactive sessions, students are being equipped with essential knowledge on risk identification, emergency response, and basic life-saving techniques.

GARBAGE COLLECTION VAN

Avaada Foundation is strengthening local waste management systems through targeted infrastructure support, including the donation of a garbage collection vehicle in Adhoi, Bahchau, Gujarat. The van is equipped with a hydraulic tipper and dual-compartment waste body. The van comes with a bucket capacity of 2.0 m^3, two-compartment system for separate collection of wet and dry waste and 4060 MS-sheet-covered body with four openable windows. This intervention is improving the efficiency of waste collection and transportation, reducing accumulation in public spaces and enabling safer disposal practices.

HEALTH
AVAADA SWASTHYA

Avaada Foundation is strengthening community health by improving access to essential healthcare services, preventive care, and basic well-being support, especially in last-mile regions. Through a combination of medical interventions, nutrition support, and health awareness, we are addressing both immediate needs and long-term health outcomes.

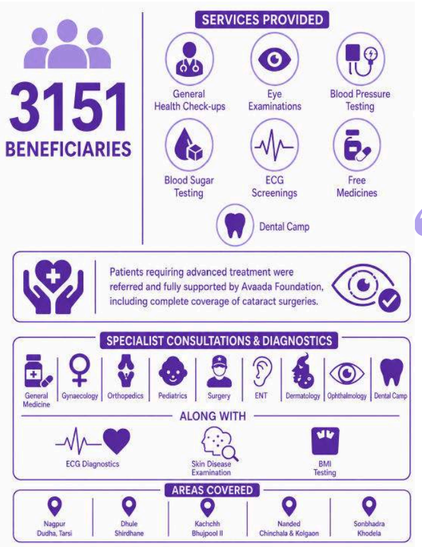

We are delivering healthcare access through medical camps and BMI testing drives, alongside targeted initiatives such as polio camps, menstrual health sessions, and oral health awareness programs. Emergency response is being strengthened through ambulance services handling critical cases across maternal care, accidents, and emergencies. At the same time, we are supporting vulnerable communities through ration kits distributed during festivals and on a regular basis, along with seasonal support through blankets, sweaters, and clothing for individuals.

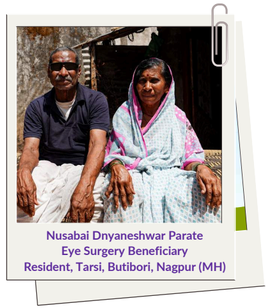

To improve healthcare infrastructure and hygiene, we are installing water stations, filtration units, and storage tanks across locations, while also supporting facilities like PHCs with air-conditioning in maternity wards. These efforts are ensuring better patient care, access to clean water, and overall improvement in health and well-being at the community level.

MEDICAL CAMPS

We strengthen access to primary healthcare by conducting large-scale medical camps and preventive health initiatives across communities. Through our medical camps, we impact 3151 beneficiaries at various locations. These camps consist of BMI testing, providing a range of services including general health check-ups, basic diagnostics, maternal and child health support, and referrals for specialized care where required. These camps are bringing essential healthcare services closer to communities that often face barriers to access, enabling early detection of health issues and timely intervention. Alongside service delivery, we are also promoting awareness around preventive healthcare, encouraging communities to adopt healthier practices and seek regular medical support, thereby improving overall health outcomes. We provide compassionate care by supporting individuals in need, helping vulnerable families, and ensuring timely medical treatment.

Nusabai Dnyaneshwar Parate
Eye Surgery Beneficiary
Resident, Tarsi, Butibori, Nagpur (MH)

My husband and I had been struggling with deteriorating eyesight for a long time, making even simple daily activities difficult. As daily wage earners with limited means, the cost of treatment felt beyond our reach. During a health camp organised by Avaada Foundation in our village, we were diagnosed with cataracts and received complete support for our surgeries. Today, we can both see clearly again and live more independently. I am deeply grateful to Avaada Foundation for standing by us during a difficult time and helping bring light, confidence, and dignity back into our lives.

POLIO CAMP

A Polio Immunization Camp was conducted in Bikaner, reaching 66 beneficiaries. Beyond administering vaccines, the initiative represented a vital step toward safeguarding children's futures, protecting them from a preventable yet life-altering disease. Through awareness and care, the camp reinforced the importance of immunization, nurturing healthier, stronger, and more resilient communities.

BLOOD DONATION

Blood donation camps across Shirdhane, Nagpur, and Mumbai to promote voluntary blood donation and strengthen access to lifesaving healthcare support. Under this initiative we collected 108 units blood, encouraged community participation and created awareness around the importance of regular blood donation.

MENSTRUAL AWARENESS SESSION

A Menstrual Awareness Session was conducted in Dudha, Nagpur, benefiting 50 participants. The session focused on menstrual hygiene, safe practices, and breaking common myths and taboos. Through interactive discussions, participants gained better awareness and confidence to manage their menstrual health effectively and promote healthy practices within their communities.

NUTRITIONAL KIT

Avaada Foundation is addressing nutritional needs and food security among vulnerable communities through the distribution of ration and nutritional kits. Reaching 5,264 beneficiaries, these interventions include both one-time and periodic distributions aligned with community needs, including support during festivals such as Akshaya Tritiya. The initiative is strengthening household food security, supporting the nutritional needs of TB patients, and ensuring that vulnerable families are able to maintain health and well-being during periods of need.

Sunita Devi and family
Ration kit beneficiary
Sonbhadra

After losing my husband while I was pregnant, I was left alone to care for my three young children with no stable source of income. There were days when arranging food itself became a challenge. During this difficult period, the ration kit provided by Avaada Foundation brought much-needed relief and ensured that my children did not go hungry. More than the support, it gave me hope and reassurance that someone cared for families like mine. I am deeply grateful to Avaada Foundation for standing by us when we needed it the most.

5264
BENEFICIARIES

"Nourishing lives with dignity and compassion"

REACHING THOSE WHO NEED IT MOST

- TB Patients
- Destitute
- Economically Backward Families
- Widows
- People with Disabilities

AREAS COVERED

Extending immediate support when it's needed the most.

Monthly Ration Kits
Providing consistent nutritional support every month.

On Akshay Tritiya
Spreading hope and prosperity on this auspicious day.

Feasts on Festivals
Celebrating togetherness and ensuring no one is left behind.

DRINKING WATER

Access to safe drinking water remains a critical challenge across many rural and semi-urban regions, where communities often rely on limited or unsafe sources, impacting health, and overall quality of life. Recognizing water as a necessity and foundation for dignity and well-being, Avaada Foundation has been actively working to bridge this gap through targeted water infrastructure interventions. In 2025–26, Avaada Foundation strengthened its commitment by setting-up and water stations across Maharashtra, Rajasthan, and Uttar Pradesh. This include 3 pre-casted drinking water stations of 5000-litre each and one 12,000-litre water station in Vida (Kaij, Beed, Maharashtra), installation of high-capacity 15,000-litre and 5000-litre water units in Poogal (Bikaner, Rajasthan). Additionally, we set-up water stations at Shri Jawahar High School in Kot (Dadri, Uttar Pradesh) and across schools in Giral (Barmer, Rajasthan), ensuring that both public institutions and educational spaces have access to clean water.

WINTER RELIEF SUPPORT

Avaada Foundation distributed 2,146 woolens, including sweaters, blankets, and clothes to vulnerable women, adolescent girls, and children across Barmer & Bikaner (Rajasthan), Bhachau (Gujarat), Mumbai, Nanded, Nagpur & Dhule (Maharashtra), and Sonbhadra & Varanasi (Uttar Pradesh). This seasonal initiative not only provided essential warmth but also brought comfort and dignity to those facing harsh winter conditions. By protecting communities from extreme cold, it helped reduce cold-related hospitalizations, especially among the elderly and most at-risk groups, fostering a sense of care, safety, and improved well-being during the winter months.

AMBULANCE - *AVAADA JEEVAN RATH*

One ambulance service and a mortuary van in Kathua, Jammu & Kashmir; and one ambulance in Bhairukheera, Rajasthan, has transformed emergency response in the remote regions, reducing critical response time. Over the past year, the service has supported 500+ residents during crucial and emergency situations, including maternal care & institutional delivery, accidents, and other life-threatening conditions. The ambulance service ensured emergency healthcare by transporting patients from remote villages to hospitals located up to 50 km away, including a significant number of cases requiring support during midnight. This initiative has not only improved access to healthcare but has also ensured timely medical assistance, saving many lives. The service is expected to continue addressing community needs and contributing positively to the healthcare sector in the future.

AC INSTALLATION IN GOVERNMENT HOSPITAL

Air-conditioning support was provided to the maternity ward at PHC Badnu to enhance comfort and ensure a safer environment for mothers and newborns. This intervention helps maintain appropriate temperatures, improves hygiene conditions, and supports better maternal and neonatal care, especially during extreme weather conditions.

RURAL ELECTRIFICATION

AVAADA URJA GRAM

Reliable electricity continues to remain a critical gap across many rural and remote regions, affecting daily life, safety, education, and access to essential services. In several communities, limited or inconsistent power supply restricts productivity, creates an unsafe environment, and impacts the functioning of schools and healthcare facilities. Addressing this need, we actively enable access to clean, dependable energy solutions that improve quality of life and support community development.

Through our solar power systems, solar and LED streetlights installation across diverse regions, we continue enhancing safety, mobility, and public infrastructure. In addition, critical institutions are being supported through inverters, batteries, and trolley systems in schools and healthcare facilities, including maternity wards, ensuring uninterrupted power supply. These interventions are collectively benefiting over 19,103 individuals, while promoting sustainable energy adoption and strengthening resilience at the grassroots level.

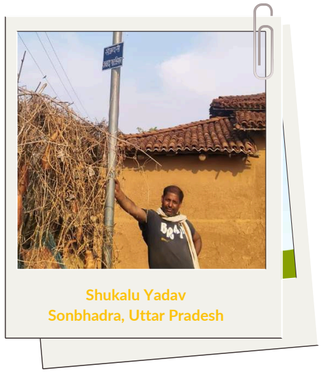

SOLAR LIGHTS

Avaada Foundation continues to make significant strides in rural empowerment through its extensive solar electrification initiatives, successfully deploying through 2 power plants of 25KW in PM Adopted Village, Jayapur (Varanasi, UP) for past 11 years. By establishing solar power plants in regions like Hoongla (Arunachal Pradesh), the Foundation has brought sustainable energy to hundreds of residents, fostering growth in previously underserved areas. Beyond large-scale plants, the initiative has illuminated communities by installing 140 solar and LED streetlights across Bhachahu (Kachchh, GJ), Bikaner (RJ), and Sonbhadra (UP) enhancing safety and extending economic hours for over 17,200 beneficiaries.

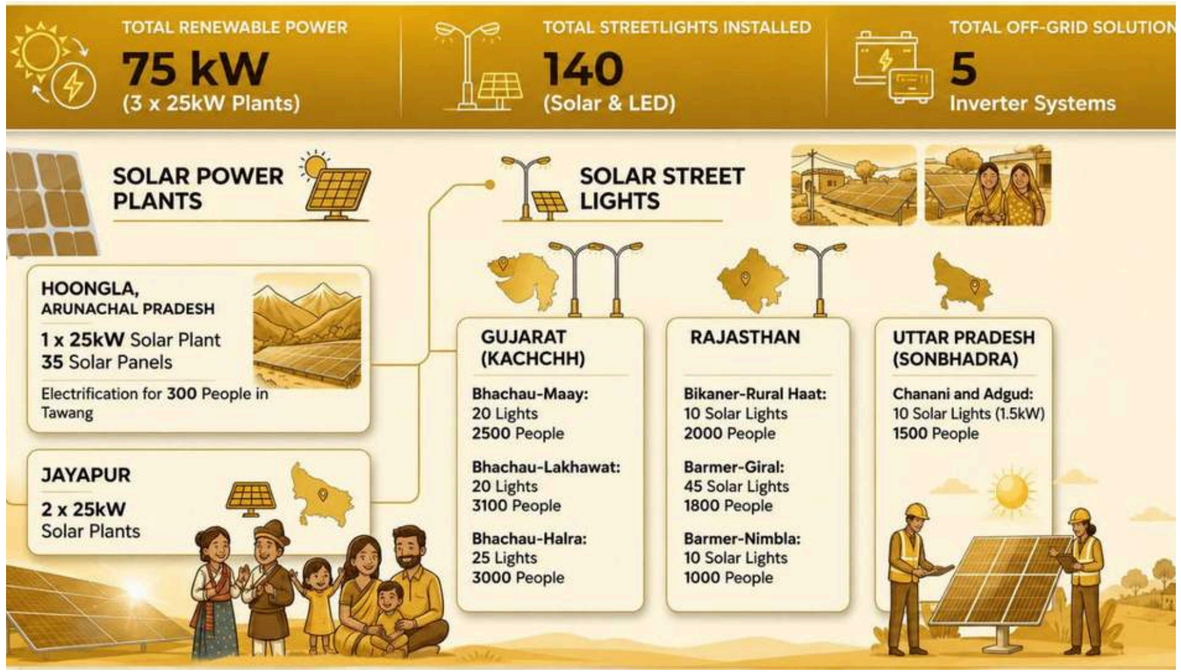

Shukalu Yadav
Sonbhadra, Uttar Pradesh

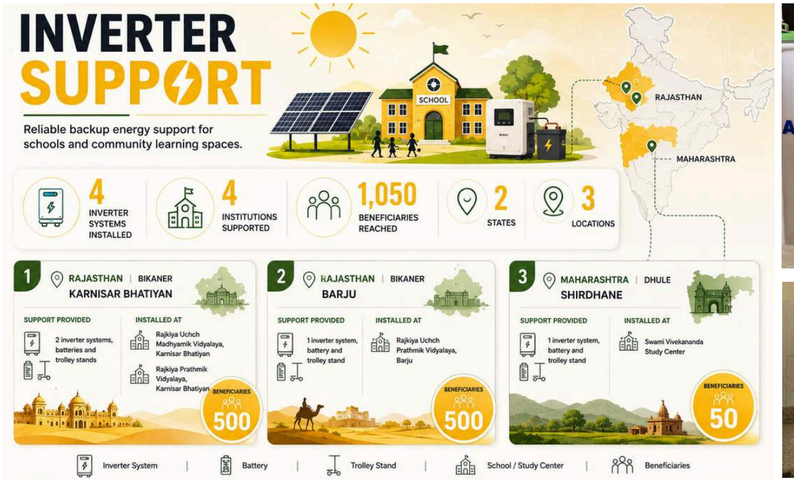

There was a time when our village would disappear into darkness as soon as the sun set. We avoided stepping out, and our children struggled to study in the evenings. Today, the solar street lights have changed that. The roads around my home are illuminated, people feel safer, and our village feels more alive. It may seem like a small change, but for us, it has made a world of difference.

INVERTER

Avaada Foundation is strengthening access to reliable energy solutions by supporting educational institutions with inverter and battery systems across Rajasthan and Maharashtra. During the year, inverter systems were installed at Rajkiya Uchch Madhyamik Vidyalaya and Rajkiya Prathmik Vidyalaya in Karnisar Bhatiyan, Bikaner, Rajkiya Uchch Prathmik Vidyalaya in Barju, Bikaner, and Swami Vivekananda Study Center in Shirdhane, Dhule. A cornerstone of this mission is the support for critical healthcare infrastructure, exemplified by the electrification of maternity wards at PHC Badnu in Rajasthan. These interventions are ensuring uninterrupted access to electricity, creating better learning environments, and strengthening essential infrastructure for students and communities.

NEW BEGINNINGS

At Avaada Foundation, we believe that lasting change is never created in silos, it is built through collective ownership. Every new initiative is therefore designed and launched in close collaboration with the local administration, community leaders, grassroots institutions, and the people it is meant to serve.

For us, the start of a project is never just an operational milestone or a date on the calendar. Each beginning is celebrated as a community festival—an occasion filled with hope, pride, and shared progress. Launch events come alive through cultural performances, songs, and dances by local students and community members.

Residents are invited not merely to witness new opportunities, but to actively participate in shaping them. Community members are recognised, felicitated, and welcomed with warmth, with refreshments and meals served as a gesture of togetherness and hospitality.

Representatives from the local administration are also invited as chief guests, reinforcing partnership, accountability, and continuity.

At Avaada Foundation, every new beginning is not just the launch of a project—it is the celebration of a shared future.

EXTERNAL PARTNERSHIPS

Avaada Foundation continues to expand its impact through strategic partnerships with a diverse network of non-governmental organisations, educational institutions, research bodies, and community-based organisations. These collaborations play a vital role in strengthening last-mile delivery, enabling the Foundation to reach underserved communities with sustainable and need-based interventions.

Through this collaborative approach, we are supporting initiatives across education, healthcare, research, skill development, and community infrastructure. From strengthening educational ecosystems and promoting experiential learning to expanding access to digital education in remote regions, these partnerships are helping bridge critical development gaps while creating opportunities for long-term growth.

By leveraging the expertise, innovation, and grassroots presence of our partners, Avaada Foundation is able to scale impact, foster inclusive development, and build resilient community ecosystems. Together, we are creating meaningful and lasting change that empowers individuals, strengthens institutions, and contributes to sustainable nation-building.

Avaada Foundation is strengthening educational ecosystems in Madhya Pradesh, by creating enabling learning environments that support both access and quality. At one school in Dongla, the Foundation is enhancing the learning experience through the construction of classrooms, provision of classroom furniture, establishment of a computer lab and a dedicated STEM room, while also providing a school bus to reduce mobility barriers for students. At another school in Khandwa, Avaada Foundation is supporting the complete construction of a new school building, helping create a stronger foundation for future generations. Through these interventions, the Foundation is fostering educational infrastructure, and creating opportunities for children to learn and grow

Government Dental College And Research Institute

Through CSR initiatives, Avaada Foundation supported the Government Dental College and Research Institute (GDCRI), Bengaluru, in fostering a premier hub for integrative clinical education and translational research. This partnership enhances advanced technology integration, empowers next-generation dental professionals with robust clinical skills, and delivers high-quality, comprehensive healthcare to diverse and underserved communities.

Planetskool

Supported by the Avaada Foundation, PlanetSkool promotes the ancient Indian value of "Vasudhaiva Kutumbakam" (the world is one family). This partnership funds impactful virtual classroom initiatives across numerous schools in Uttarakhand, as well as at key locations in Varanasi and Dhule, Maharashtra, bringing digital education to students.

VIRSACO

Avaada Foundation supported the DSIR-SIRO-recognized Vimal Research Society for Agro-Biotech & Cosmic Powers provides graduate and postgraduate students with advanced laboratory facilities. This unique platform complements traditional academic setups, offering cutting-edge scientific and biotechnological research opportunities that bridge critical gaps in current educational institutions.

Suraj Eye Hospital- Drashti Trust

Supported by the Avaada Foundation, the Om Drishti Trust's Suraj Eye Hospital works to eliminate preventable blindness in Central India. This impactful partnership protects children's vision and delivers specialized eye care services to underserved communities, ensuring accessible, high-quality vision care for all.

Malang Folk Foundation

Avaada Foundation partnered with local institutions and government stakeholders to create enriching opportunities for children and youth. Through its support to the "Aaju–Guja" Children's Festival in Bikaner, the Foundation in collaboration with Malang Folk Foundation promotes creativity, cultural awareness, and experiential learning through art, craft, music, and heritage-based activities.

Patory Foundation

Avaada Foundation supported the Patory Foundation to foster a safer, more informed society. Supporting impactful grassroots initiatives helps provide self-defence workshops, conflict-resolution programs, and educational awareness for women and youth. It has equipped thousands of women with life-saving skills, confidence, and paths to peaceful conflict resolution.

Madiwal Community Foundation

Avaada Foundation proudly partnered with the Madiwal Community Foundation to drive social upliftment and inclusive growth. Through this collaboration, we actively supported in providing hostel facilities for underprivileged girl children and ensuring a conducive environment for better study opportunities, enabling them toward a brighter future.

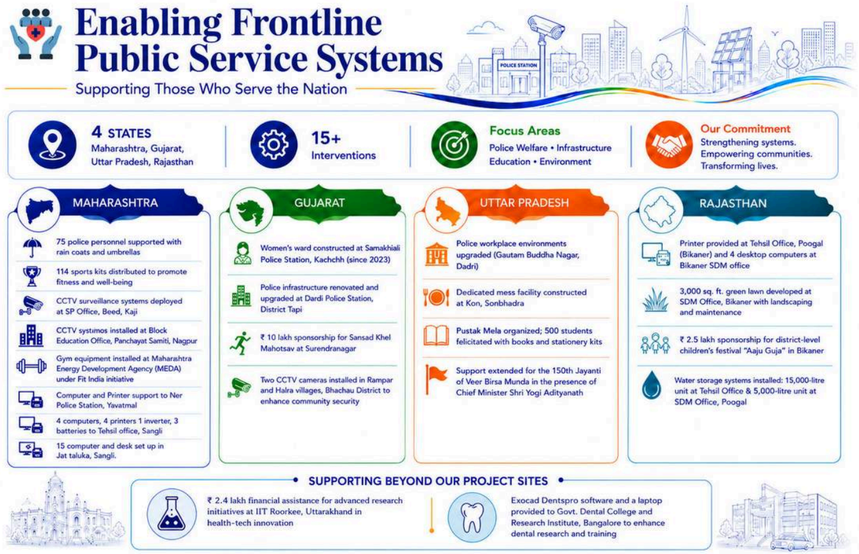

Sewa Bharti Nyas- Agar

Avaada Foundation has extended support to the Sewa Bharti Nyas initiative located on Kota Road, Agar (Ujjain, Madhya Pradesh). The Support is being utilized for the construction of a new building of Swasthya Mandir, directly expanding the facility's capacity to serve a larger volume of patients. This infrastructure upgrade significantly strengthens their specialized naturopathy treatments, bringing advanced, holistic healing to underserved communities.

SERVING THOSE WHO SERVE THE COMMUNITY

Avaada Foundation, under its ‘Village Adoption Programme’, is strengthening frontline public service systems by supporting government institutions and personnel who are at the forefront of community service. Through targeted interventions, the Foundation is enhancing infrastructure, improving working conditions, and enabling better service delivery across regions. These efforts are focused on ensuring that public systems are better equipped to respond to community needs efficiently and sustainably. Through this approach, Avaada Foundation is reinforcing its commitment to supporting those who serve communities every day ensuring they are better equipped, supported, and empowered to deliver essential services effectively.

Avaada Foundation transforms the face of Butibori villages

State-of-the-Art Community Development Center inaugurated in Tarsi

Nagpur 17 March: Reaffirming its commitment to Corporate Social Responsibility, the Avaada Foundation has been working with a spirit of dedication for several years toward the upliftment of the extremely backward villages of Tarsi, Dudha, and Dhavalpeth in the Butibori industrial area of Nagpur. In this sequence, amidst a grand and colorful program in Tarsi village, the newly constructed 'Community Development Center' was formally inaugurated by the Honorable Member of the Legislative Assembly from Hingna, Maharashtra, Shri Sameer Dattatraya Meghe. Speaking on the occasion, he said, "Many industrial units operate in this region and earn profits from their operations. However, the specialty of the Avaada Group is that they have not even fully commenced profit-making operations yet, and yet they have worked with such dedication for the upliftment of the villagers of Dudha, Tarsi, and Dhavalpeth, for which I thank them from the bottom of my heart. I believe that improving the standard of living of the people in the area where we conduct business is the moral responsibility of that institution. Your Chairman, Shri Vineet Mittal, understands this social responsibility very well, for

which I express my gratitude to the Avaada Foundation and the company." This center established in Tarsi has become a major hub for inclusive development. Under one roof, rural women are being provided training in advanced sewing and other skills to make them self-reliant.

Regular free tuition classes are being conducted by trained teachers for students of classes 1 to 10 from the village to strengthen their academic foundation. Additionally, modern computer education is being provided to prepare children for future challenges. The Avaada Foundation has not only renovated and rejuvenated the government schools of Dhavalpeth and Dudha but has also brought about an unprecedented improvement in the quality of education. Teaching is being conducted through the 'Panini Method' by special teachers appointed by the Foundation in government schools, providing students with an opportunity to connect with their roots and the scientific nature of the language. He also unveiled state-of-the-art Smart Boards at the government school in Dudha village.

In a message sent on the occasion of the inauguration, Director Mrs. Ritu Patwari stated that the Foundation's goal is to transform these backward villages into model villages through education, health, sports, and technology. There is immense enthusiasm among the villagers of Tarsi, Dudha, and Dhavalpeth due to these efforts of the Avaada Foundation. Especially on the faces of women and children, a new smile and hope for a better future are visible. Present on this occasion were Senior Managers of Avaada Group Mridul Dehlot and Sankalp Dubey, many dignitaries, school principals, and students.

पनवाडगाव रावणा येथील जिल्हा परिषद शाळेत अवादा फाउंडेशनतर्फे सामाजिक विकास कार्यक्रम उत्साहात पार पडला. विद्यार्थ्यांच्या शैक्षणिक सुविधा वाढवून प्रवास सुलभ व्हावा, शिक्षण अधिक सक्षम करण्याच्या उद्देशाने हा उपक्रम राबविण्यात आला.

या कार्यक्रमात पंचायत समितीचे माजीसभापती अविनाश पाटील, सरपंच विजय अधिकारी, उपसरपंच रवींद्र वेलदे, अवादा फाउंडेशनचे प्रकल्प संचालक विजयेंद्र रेड्डी यांची मुख्याध्यापिका शीतल, शालेय समिती अध्यक्ष पांडुरंग पाचांडे, शिक्षण प्रेमी व पालक मोठ्या संख्येने उपस्थित होते.

कार्यक्रमाच्या सुरुवातीला १९९ विद्यार्थ्यांचे शालेय बैठ आणि २२ विद्यार्थ्यांना सायकलीचे वाटप करण्यात आले. सायकलींमुळे विद्यार्थ्यांचे दररोजचे अंतर कमी होऊन त्यांचा वेळ आणि शारीरिक श्रम वाचतील, असे मत यावेळी पालकांनी व्यक्त केले. याशिवाय १५ वाह्य व नियमित क्रीडांगण उपलब्ध करण्यात आले. या सुविधेमुळे विद्यार्थ्यांचे दिवसभराचे खेळण्याकडून आनंदात होईल, असे मुख्याध्यापिका शीतल यांनी सांगितले. तसेच शालेय साहित्य, स्मार्ट बोर्ड आणि डिजिटल शिक्षण उपक्रमांसाठी उपलब्ध करून दिल्याबद्दल ग्रामस्थांनी अवादा फाउंडेशनचे आभार मानले.

सुविधांचा लाभ व्यावा

खासगी शाळांप्रमाणे सुविधा शासकीय शाळांत ह होती. ही शाळासम्पन्न व्हावी, असे आवाहन विद्यार्थ्यांनी व संस्थेचा लाभ घ्यावा.

— प्रदीप वाघ, मुख्याध्यापक अविनाश

176 छात्रों को वितरित की साइकिल

घोसी (मऊ), हिन्दुस्तान संवाद। घोसी तहसील क्षेत्र अंतर्गत महुवारा मोड़ स्थित जूनियर हाईस्कूल के प्रांगण में रविवार को मधुवन तहसील के 36 गांवों के 176 मेधावी छात्रों को साइकिल वितरित किया गया। कार्यक्रम के मुख्य अतिथि प्रदेश के नगर विकास और ऊर्जा मंत्री एके शर्मा रहे। कार्यक्रम का शुभारम्भ मां सरस्वती के चित्र पर माल्यार्पण और दीप प्रज्वलित करके किया गया।

साइकिल वितरण कार्यक्रम को सम्बोधित करते कैबिनेट मंत्री एके शर्मा।

कार्यक्रम को सम्बोधित करते हुए मुख्य अतिथि प्रदेश के नगर विकास और ऊर्जा मंत्री एके शर्मा ने कहा कि जब गांव के होनहार बच्चों को समाज का साथ मिलता है तो पूरे देश का सम्पूर्ण विकास होता है। उन्होंने कहा कि ग्रामीण अंचलों के बच्चों में प्रतिभाओं की कमी नहीं है, बस उनकी प्रतिभाओं को उभारने की आवश्यकता है। कैबिनेट मंत्री एके शर्मा ने कहा कि सरकार की तरफ से अनेक योजनाओं का संचालन किया जा रहा है। इसका लाभप्राप्त करके लोग आत्मनिर्भर बन सकते हैं।

इस अवसर पर मुख्य रूप से जिला पंचायत अध्यक्ष मनोज राय, पूर्व नगर पंचायत अध्यक्ष शंकर मद्धेशिया, ब्लाक प्रमुख प्रतिनिधि फतहपुर मण्डाव प्रवीण शुभम सिंह, राहुल दीक्षित, पवन कुमार पाण्डेय, प्रोजेक्ट हेड सोमप्रकाश वंसल, अनुराग चोखानी, मनीष पांडेय, निखिल उत्तम, राहुल पटेल आदि उपस्थित रहे।

आईटीआई में 14 छात्रों को मिला प्रवेश

सोनभद्र, संवाददाता। अवादा फाउंडेशन ने आदिवासी बहुल गांव चिचलिक और खोड़ैला के युवाओं को रोजगारपरक शिक्षा से जोड़ते हुए 14 युवाओं को आईटीआई में प्रवेश के लिए सौ प्रतिशत द्विवर्षीय छात्रवृत्ति प्रदान कर उन्हें आत्मनिर्भर बनाने की दिशा में सराहनीय कदम उठाया है। फाउंडेशन की कौशल विकास छात्रवृत्ति योजना के अंतर्गत इन छात्रों का नामांकन नेशनल प्राइवेट आईटीआई कालेज के मैनेजर आकाश पटेल एवं प्रिंसिपल विजय मौर्य को सौंपा। कार्यक्रम में बड़ी संख्या में अभिभावक एवं गणमान्य नागरिक उपस्थित रहे। पिछले एक वर्ष में अवादा फाउंडेशन ने ग्रामीणों को समाज की मुख्यधारा से जोड़ने के लिए युवाओं की प्रवास किए हैं। इन प्रयासों के अंतर्गत,
